Product Description

WATER BOOSTING SYSTEM 12V DC Designed to Boost and provide a constant water pressure. If your supply has a very low pressure or fluctuates greatly, this is the kit you need. Single pump 12 volt DC supply. Ideal for RV, Caravan and Boat applications. We also supply 240v dual pump versions. The pumping system is pre-built and very easy to install, connect the water line, supply power and the pump will do the rest. The pumping system is fully automatic and activates on demand, when you turn on your tap the pump operates and provides the relevant flow of water. The unit has a built in inlet strainer, pressure switch and check valve. The compact design allows installations in cupboards and convenient locations.

Water Boost Pump Dual 240V

BOOST2-240 240 Volt Water boosting system. Designed to boost your low pressure water supply. Easy installation, 240 volt version is Ideal for the Home or Office. 240 Volt AC. 17.0 Litres per minuite. 40psi Pressure shut off. Amps 0.4 at 10psi. Size 510mm Wide x 350mm Depth x 510mm Height.

Product Description

Very easy to install. Great quality pump at a fantastic price. If you have low mains water pressure, the compact boost pump is designed to provide 2.8 bar to your mains pressure at a maximum flow rate of 18LPM, The Compact Boost pump features a selection of standard 15mm BSP thread connectors for easy connection and Push on clip type connectors for all other installations. The pump is pre-wired with over 1mtr of 3 core mains electrical cable. The pump will automatically start when a water outlet opens and demands water, ie when you turn on your tap or shower the pump will kick in and provide a good water flow. Self Priming, Can run dry without causing damage, Fully Automatic

24V (24 Volt) Solar Deep Well Pump

- 24V Solar pump complete pre wired with 3mtr 2 core 14awg quality cable.
- 24 volt dc Solar or battery operation
- Max 4 amp
- Max Lift 70 meters (235 feet)
- Max submersion 30 meters (100 feet)
- Flow rate is 422 Litres per hour (112 Gallons per hour)
- For 4" or larger wells
- Quick disconnect discharge gland
- Positive Displacement
- 3 Chamber Diaphragm Pump Motor:
- Permanent Magnet Thermally Protected Internal Bypass:
- 105-110 PSI Max(7.0 to 7.5 BAR)

- **Outlet Port: 1/2"**
