Product Description

Uniflo Sainless Steel Cleaner 5Ltr and 5Ltr Baby Oil finisher (2 x 5Ltr) For use on all Stainless Steel appliances, ie Kitchen appliances, Stainless Steel Urinals Proffesional clean. Instructions for use: You will need a dry, lint free softs cloth, microfiber cloths are ideal. Apply the stainless steel cleaner to your appliance with a cloth or sponge, rub in and allow to soak for a 30 seconds then rinse off or wipe with a damp cloth and buff. The product will remove grease, grime and limescale. Don't worry about any watermarks left behind the oil will take care of them. Apply the cleaning oil with one of the soft dry lint free cloths, wipe the oil in the direction of the grain of the stainless steel. Look closely and you will see that there are lots of tiny grain lines all going in the same direction, wipe parallel to the lines and not perpendicular to them, otherwise you risk scratching the surface. Use the other dry lint free cloth to softly buff up the oil using very little pressure, this should buff to a sparkling shine. The oil will clean and shine the surface. Care should be taken when using all types of cleaning agents

Stainless Steel Cleaner 5 Ltr
